"Teamwork is the ability to work together toward a common vision- The ability to direct individual accomplishments toward organizational objectives. It is the fuel that allows common people to attain uncommon results."

Author, Andrew Carnegie

Dear Mercer County Singles Volunteers:

I really love the quote listed above by Andrew Carnegie, because it summarizes how I feel about the power of a team. I know that our walk continues to be a success because of the dedication of our volunteers. I want to sincerely thank you for donating your time and energy to make March for Babies a success.

As you know, the March of Dimes mission is to improve the health of babies by preventing birth defects, premature birth, and infant mortality. The March of Dimes carries out this mission through research, community services, education and advocacy to save babies' lives. March of Dimes researchers, volunteers, educators, advocates, and staff work together to give all babies a fighting chance against the threats to their health.

March for Babies is a large event to organize, but by working together with community oriented people like you, our team pulled off a great event! Despite the rainy weather, we were able to provide sunshine to those who matter most- the babies.

I want to thank you again for your support of our mission. We hope that you will join us in 2011 for another great event.

All the best,

Kitara Garner
Community Director
Mercer County
